

Structure pedagogical and educational activities in order to optimize the child's capacity to learn multiple languages.

PRESCHOOL EDUCATIONAL PROJECT

The Vision Preschool Network aims to ensure that all preschoolers **develop their full personal, social, motor and cognitive potential** by building on the benefits of a **multilingual environment** as well as **fun and meaningful activities**, and this, to promote a successful entry into the school world.

Develop organizational structures and educational interventions that will support the overall development of each child.

Create a living environment where children learn through play in contexts that are meaningful to their age group.
